Circular HSC (SQSD) (NICE CG187) 29/14
NUMBER>

Subject: NICE Clinical Guideline CG187 – Acute heart failure: diagnosing and managing acute heart failure in adults

For action by:

Chief Executive of HSC Board – **for distribution to:**

All HSC Board Directors – for cascade to relevant staff

Director of Integrated Care, HSC Board – **for cascade to:**

Head of Pharmacy and Medicines Management
Family Practitioner Services Leads – for cascade to relevant
Family Practitioner groups

Chief Executive of Public Health Agency – **for distribution to:**

Director of Public Health and Medical Director – for cascade
to relevant staff
Director of Nursing and AHPs – for cascade to relevant staff

Chief Executives of HSC Trusts – **for distribution to:**

Medical Directors – for cascade to relevant staff
Directors of Nursing – for cascade to relevant staff
Heads of Pharmaceutical Services – for cascade to relevant
staff
Directors of Acute Services – for cascade to relevant staff
HSC Clinical and Social Governance Leads
Directors of Social Services – for cascade to relevant staff
Directors of Finance – for cascade to relevant staff
AHP Leads – for cascade to relevant staff

Chief Executive, Regulation & Quality Improvement Authority – **for cascade to:** relevant independent healthcare establishments

Chief Executives of HSC Special Agencies and NDPBs

For Information to:

Chair of HSC Board
Chair of Public Health Agency
Chairs of HSC Trusts
Chair of RQIA
NICE Implementation Facilitator NI
Members of NI NICE Managers' Forum

Summary of Contents: This clinical guideline offers evidence-based advice on the care and management of adults with acute heart failure or possible acute heart failure.

Dear Colleagues

NICE Clinical Guideline CG187 - Acute heart failure: diagnosing and managing acute heart failure in adults (<http://www.nice.org.uk/guidance/CG187>)

The Department has recently reviewed the above NICE guidance and has formally endorsed it as applicable in Northern Ireland.

In accordance with the process outlined in circular HSC (SQSD) 3/13 (http://www.dhsspsni.gov.uk/hsc_sqsd_3_13.pdf), the following actions should be taken

1. HSC Board / PHA
 - a. Identify a Professional Lead who will consider the commissioning implications of the Clinical Guideline and co-ordinate with any other relevant commissioning teams. This Lead will identify any areas where regional planning / investment / commissioning are required, or where there is material risk to safety or quality. These will then be actioned immediately through normal commissioning arrangements or through bespoke arrangements reflecting the nature of the issue / risk.
 - b. Ensure that relevant guidance is sent to the appropriate Family Practitioners.
 - c. Seek positive assurance from the HSC Trusts that the required initial actions have been undertaken within a 3 month period, and that the Guideline has been implemented within a further 9 months (unless otherwise notified by the HSC Trusts).
 - d. Where significant investment/ commissioning needs cannot be met within the usual timeframe, agree appropriate arrangements with HSC Trusts. Report to DHSSPS as required at 6 monthly accountability meetings.
2. HSC Trusts
 - a. Proceed with targeted dissemination, agree a clinical/management lead to coordinate implementation and consider what has to be done to achieve implementation using a risk based assessment and baseline review as appropriate to support planning. These initial actions should be undertaken within a three month period.
 - b. Implement the Guideline within a further 9 months (apart from any elements where significant issues have been raised with the HSC Board/PHA).
 - c. Provide positive assurances to the HSC Board that required initial actions have been taken within the 3 month planning period and that the Guideline has been implemented within a further 9 months, where appropriate.
 - d. Where significant investment/ commissioning needs cannot be met within the usual timeframe, notify the HSC Board/PHA at the earliest opportunity through the bi-monthly director level meetings and agree appropriate arrangements with them to achieve implementation.
3. RQIA
 - a. Disseminate the Guideline to the independent sector as appropriate.
4. HSC Special Agencies and NDPBs
 - a. Take account of this Guideline in training and other developments as appropriate.

To inform the planning process, please find attached details from the Departmental review including estimates of costs / savings based on the NICE costing template, where this is applicable. You should also consider and take account of other relevant Departmental policies and strategies in your planning, as well as any legislative / policy caveats identified in the course of the Departmental review.

A full current list of NICE guidance endorsed for application in Northern Ireland can be found on the Department's website (<http://www.dhsspsni.gov.uk/index/phealth/sqs/sqsd-guidance/sqsd-guidance-nice-guidance.htm>).

A handwritten signature in black ink, appearing to read 'Michael McBride', written in a cursive style.

Chief Medical Officer

Appendix 1

Endorsed NICE guidance - Details from Departmental review

Reference Number	NICE Clinical Guideline - CG187
Title	Acute heart failure: diagnosing and managing acute heart failure in adults
Summary of guidance	This clinical guideline offers evidence-based advice on the care and management of adults with acute heart failure or possible acute heart failure.
Number of people expected to take up or benefit from the service / therapy	It is estimated that around 1,800 people per annum in Northern Ireland would benefit from fully implementing this guidance.
Costs / savings associated with implementation	Unable to calculate for Northern Ireland. Fully implementing this guidance in Northern Ireland is not expected to have a significant resource impact. There will be additional costs associated with fully implementing this guidance, for example the cost of recruiting additional staff to ensure there is a complete heart failure team and the cost of providing a follow up assessment within 2 weeks of discharge. However, these costs are likely to be offset by the savings that will be made from reduced re-admission rates due to patients being stabilised before discharge.
Related strategically relevant DHSSPS policies	None
Inter-Departmental interest	None
Legislative / policy caveats	<p>This advice does not override or replace the individual responsibility of health professionals to make appropriate decisions in the circumstances of their individual patients, in consultation with the patient and/or guardian or carer. This would, for example, include situations where individual patients have other conditions or complications that need to be taken into account in determining whether the NICE guidance is fully appropriate in their case.</p> <p>Where the guidance refers to the Mental Health Act, this should be interpreted within the Northern Ireland legal framework of the Mental Health (Northern</p>

	Ireland) Order 1986. Available from: http://www.opsi.gov.uk/RevisedStatutes/Acts/nisi/1986/cnisi_19860595_en_1
