Dear Colleagues

NICE Guideline NG11 - Challenging Behaviour and Learning Disabilities
(http://www.nice.org.uk/guidance/ng11)

The Department has recently reviewed the above NICE guidance and has formally endorsed it as applicable in Northern Ireland.

In accordance with the process outlined in circular HSC (SQSD) 3/13 (http://www.dhsspsni.gov.uk/hsc_sqsd__3_13.pdf), the following actions should be taken:

1. HSC Board / PHA
   a. Identify a Professional Lead who will consider the commissioning implications of the Clinical Guideline and co-ordinate with any other relevant commissioning teams. This Lead will identify any areas where regional planning / investment / commissioning are required, or where there is material risk to safety or quality. These will then be actioned immediately through normal commissioning arrangements or through bespoke arrangements reflecting the nature of the issue / risk.
   b. Ensure that relevant guidance is sent to the appropriate Family Practitioners.
   c. Seek positive assurance from the HSC Trusts that the required initial actions have been undertaken within a 3 month period, and that the Guideline has been implemented within a further 9 months (unless otherwise notified by the HSC Trusts).
   d. Where significant investment/commissioning needs cannot be met within the usual timeframe, agree appropriate arrangements with HSC Trusts. Report to DHSSPS as required at 6 monthly accountability meetings.

2. HSC Trusts
   a. Proceed with targeted dissemination, agree a clinical/management lead to coordinate implementation and consider what has to be done to achieve implementation using a risk based assessment and baseline review as appropriate to support planning. These initial actions should be undertaken within a three month period.
   b. Implement the Guideline within a further 9 months (apart from any elements where significant issues have been raised with the HSC Board/PHA).
   c. Provide positive assurances to the HSC Board that required initial actions have been taken within the 3 month planning period and that the Guideline has been implemented within a further 9 months, where appropriate.
   d. Where significant investment/commissioning needs cannot be met within the usual timeframe, notify the HSC Board/PHA at the earliest opportunity through the bi-monthly director level meetings and agree appropriate arrangements with them to achieve implementation.

3. RQIA
   a. Disseminate the Guideline to the independent sector as appropriate.

4. HSC Special Agencies and NDPBs
   a. Take account of this Guideline in training and other developments as appropriate.
To inform the planning process, please find attached details from the Departmental review. You should consider and take account of other relevant Departmental policies and strategies in your planning, as well as any legislative / policy caveats identified in the course of the Departmental review.

A full current list of NICE guidance endorsed for application in Northern Ireland can be found on the Department’s website (http://www.dhsspsni.gov.uk/index/phealth/sqs/sqsd-guidance/sqsd-guidance-nice-guidance.htm).

Dr Paddy Woods
Deputy Chief Medical Officer

<tr>
<td>Legislative / policy caveats</td>
<td>This advice does not override or replace the individual responsibility of health professionals to make appropriate decisions in the circumstances of their individual patients, in consultation with the patient and/or guardian or carer. This would, for example, include situations where individual patients have other conditions or complications that need to be taken into account in determining whether the NICE guidance is fully appropriate in their case. Where the guidance refers to the Mental Health Act, this should be interpreted within the Northern Ireland legal framework of the Mental Health (Northern Ireland) Order 1986. Available from: <a href="http://www.opsi.gov.uk/RevisedStatutes/Acts/nisi/1986/cnisi_19860595_en_1">http://www.opsi.gov.uk/RevisedStatutes/Acts/nisi/1986/cnisi_19860595_en_1</a> Where the guidance indicates that informed consent should be obtained and documented, the DHSSPS guidance ‘Reference Guide to Consent for Examination, Treatment or Care (2003)’, which is available on the DHSSPS website, gives advice on the law concerning consent to intervention. Available from: <a href="http://www.dhsspsni.gov.uk/consent-referenceguide.pdf">http://www.dhsspsni.gov.uk/consent-referenceguide.pdf</a> It should be noted that this guidance contains some recommendations for off-label use of medicines. Trusts and practitioners must be aware of their responsibilities and ensure that appropriate policies are in place when medicines are used off-label.</td>

**Working for a Healthier People**

The Department of Health guidance ‘Transition: getting it right for young people’ does not apply in Northern Ireland. Provision of appropriate transition care for young people as they move from paediatric to adolescent and adult care will be taken forward in the Department’s imminent review of paediatric services.
